# MCA

professional post-graduate  
degree course

## About the Program

Master of Computer Applications (MCA) is a master degree in computer Application. MCA is a two year professional post-graduate degree course for students who wish to acquire deeper knowledge and skills in the world of computer application. The MCA course is a combination of both theoretical and practical knowledge. With an MCA degree, students can learn different tools meant to develop better and faster computer applications and software to make a successful career.
